FruitPunch AI Bootcamp Certificate

An 8-week course teaching hands-on experience in applying AI in practice

This certificate is proudly presented to

Sayed Mohd Kazim Mehdi

for successful completion of the AI in practice Bootcamp

Which taught the following topics:

- { Basics of AI }
- { Developer Skills }
- { Exploratory Data Analysis }
- { Data Engineering }

- { Common pitfalls of ML }
- { Mitigating Bias }
- { AutoML }
- { Transfer Learning }

The participant showed an excellent understanding of these techniques by applying them to real-world datasets

★ A collaborative group capstone project was completed and presented ★
